

IT SECURITY POLICY

Securital Solutions Ltd provides security and security-related services in Malta and is committed to protecting the confidentiality, integrity, and availability of its information, systems, and digital assets.

The Company recognizes that information security is essential to operational continuity, regulatory compliance, and the protection of client, employee, and Company data.

Our Commitments

Protection of Information Assets

- To safeguard Company, client, and employee information from unauthorized use.
- To protect information systems through appropriate security measures.

Access Control and User Responsibility

- To restrict access to systems and data to authorized persons based on business need.
- To require secure authentication practices.
- To ensure that user access is granted, reviewed, and revoked in a controlled manner.

Secure Use of Technology

- To ensure Company IT resources are used responsibly and only for business purposes.
- To ban unauthorized software installation, unsafe downloads, and unapproved devices.
- To ensure responsible use of personal devices that access Company systems.

Data Protection and Compliance

- To ensure that information security controls support compliance with applicable legislation.
- To maintain appropriate backup and recovery measures to protect critical information.

Incident Management

- To promote reporting of any suspected cyber incidents or lost devices.
- To ensure that information security incidents are recorded, assessed, and addressed.

Continuous Improvement

- To periodically review and improve information security measures.

This policy provides the framework for managing information security within Securital Solutions Ltd and applies to all employees, contractors, and individuals acting on behalf of the Company. It is communicated to employees and made available to relevant interested parties.
